🧠 SKILLS

JavaScript | React | Node.js | PostgreSQL

jQuery | HTML/CSS | Material UI | Postman

AWS S3 Storage | Heroku/Deployment | GIT/GitHub

Express.js

🎓 EDUCATION

Prime Digital Academy,
Full Stack Software Engineering Certification ⬈
2022 – 2023 | Minneapolis, MN, United States
Achieved proficiency in:
- Managing complex data structures and algorithms.
- Refactoring complicated code to create organized and well managed blocks of code.
- Achieving "Exceeds Expectations" on many projects- going above and beyond to ensure I learned the content and more, even though it wasn't required.
- Utilizing GIT and GitHub to collaborate with group members in completing large projects.
- Performing various methods of code debugging whether on client or server side such as using breakpoints and console logs, Postman, and general trial and error to effectively solve issues.

Lake Superior College, *Associates*
2014 – 2016 | Duluth, MN, United States
- Performed critical, time sensitive operations in high stress environments. Training included search and rescue operations, fire suppression, and critical thinking.
- Led calm and collected radio and verbal communications with my team, resulting in successful completion of high intensity situations.
- Completed each task effectively and on time under high stress durations.

🌐 LANGUAGES

Spanish | English

📇 PROFILE

A disciplined software developer, I'm constantly driven to improve and become the best version of myself. I thrive on the challenge of solving complex problems and am deeply fulfilled by my career in programming. I enjoy keeping busy through activities like rock climbing, reading, exercising, and having deep, thought-provoking conversations about tardigrades. Surrounded by supportive and inspiring individuals, I am constantly motivated to succeed and grow as a software developer.

💼 PROFESSIONAL EXPERIENCE

Prime Digital Academy, *Full Stack Software Engineer*
2022 – 2023 | Minneapolis, MN, United States
- Enhanced my experience and knowledge with a heavy focus on React, Javascript, Redux, CSS, HTML, jQuery, PostgreSQL, and their many accompaniments.
- "Missing Link ⬈ "- Developed a critical solution for the lack of data between patients with diagnosed ailments. Researchers are now able to draw conclusions from seemingly unrelated attributes between patients with shared condition(s), diseases, and otherwise.
- "Queerspace collective ⬈ "- Leading my team, we centralized & streamlined the company's current processes. We created a smooth experience for users and administrators, providing the ability to create and delete events and register new users to the platform, helping LGBTQ+ youth develop the confidence to be themselves.

Mallards, Village Inn, Axel's Bonfire, Tobies Restaurant & Bakery, *Waiter (various locations)*
2017 – 2022
Forest Lake, MN, Wyoming, MN, St. Paul & Blaine, MN, Hinckley, MN, United States
- Mastered time management during high stress/intense operations, including placing multiple, large & complex orders while juggling a myriad of tasks simultaneously, in order to ensure a great experience for our guests.
- Often received exemplary praise from guests and would daily be requested by name. Rarely would I receive a gratitude of less than 20%, as guests greatly appreciated my service.
- Created a warm and welcoming environment for people of all genders, races, and orientations, and developed excellent conflict management skills when needed.
- Established myself as reliable and trustworthy with my near perfect attendance rate, at all locations.
- Received preferential, profitable waiting sections due to the high quality service I provided.
